

North Northumberland Environmental & Sustainability Network

St James Centre, 24 Pottergate, Alnwick. NE66 1JW

Saturday September 23rd, 2023

9.30am – 1.00pm

AIMS & OUTCOMES

It is clear, following the October 2022 meeting and the June 2023 survey, that community groups and individuals would welcome some loose structure to facilitate communication and collaboration between us all, both through some on-line platform and the occasional physical get-together. This workshop has been organised to discuss and agree how such a network would work in practice.

The event will offer you the opportunity to make new contacts, hear the headlines from the Survey, discuss areas for collaboration, and look at tools to help us share information and ideas more easily going forward.

WORKSHOP PROGRAMME

9.30 Coffee & Tea on Arrival

10.00 Welcome and Introduction of Planning Team
