

NGH Community Event December 7th 2024

NOTES

The first half of the morning was spent networking, making new connections and catching up with familiar faces.

NGH Survey Feedback

Following the recent survey, the Steering Group reported on a number of actions that either have or are being taken in response to suggestions made. These actions, together with a summary of the feedback and the full report can be found on the NGH website.

NGH website

One of the findings from the survey was that only 50% of members were aware of the information that's available in the Resources section of the website. This includes information from SIGs, together with information about funding, local groups and organisations, How To guides and much more.

There are plans to make some changes to the website in the new year which will make it easier to find information in the Resources section.

Suggestions for additional information that members would find useful are always welcome. Suggestions can be sent to Northumberlandgreenhub@gmail.com, or use the Contact Us form on the website.

Support Roles

Given the way that NGH has developed in its first year, we would like to develop a number of opportunities for members to get involved in running NGH. These include helping to produce the Monthly Digest, managing membership admin and identifying funding opportunities.

More details will be shared in the next few weeks. It's not intended that the roles would require more than typically 1 – 1.5 hours per week (with the exception of the Digest where the week before publication gets a bit busier!).

We'll share further details on the usual channels and hope that these opportunities are of interest to members.

Dates for 2025

There are currently four events planned for 2025 – all at St James Church Centre, Alnwick. The dates are –

- March 22nd
- June 7th
- September 20th
- December 6th.
